

THE SENDING

JOHN 20:21

Introduction:

- In today's world, we are fascinated with power. Our society in particular wants to know what many "power couples" are doing and how they are presumably changing the world. This morning, we are going to take a look at a couple that some might have called a power couple, but in reality they were simply an effective team who allowed God to use them in a powerful way.

It would seem influential and popular people would have the most significant impact for eternity. However, many seemingly ordinary people have had the greatest impact and influence for eternity.
